

31. (New) A fuel for internal combustion engines, the fuel being in the form of an emulsion that is not a microemulsion, the emulsion comprising pyrolysis liquids, natural and/or mineral oils and emulsifiers selected from the group of compounds that form an oil-in-water emulsion, a bicontinuous emulsion and a water-in-oil emulsion.

32. (New) The fuel of claim 31, wherein the emulsifier is selected from the group consisting of non-ionic block copolymer (or homopolymer) surfactants having an HLB of from 4 to 18, anionic block copolymer (or homopolymer) surfactants having an HLB of from 4 to 18, and combinations of non-ionic block copolymer (or homopolymer) surfactants having an HLB of from 4 to 18 and non-ionic surfactants having an HLB of from 4 to 18. --

REMARKS

The above amendment is entered to put the claims in better form for examination and to eliminate multiple dependencies. No new matter has been added.

The original claims have been cancelled so that no marked-up version is required.

Prompt issuance of an office action on the merits is respectfully requested.

Respectfully submitted,
